Thinking Out Loud

H. M. L.

The water pageant at the municip- pool Friday night, attended by more than 250 people, spectacular and intensely interesting from a standpoint of colorful sports and athletic prowess, really gives little more than a hint of what this annual event can be.

Perhaps the most breath-taking event of the evening was the feat of two little girls, under eight years of age, who scrambled like monkeys up to the landing on the high diving tower and plunged fearlessly into the water below. The boy who was tied up in a sack and dumped into the pool gave another thrill, and the lad who plunged off the high spring board, a flaming torch, was also a colorful feature. The several clowns, their tub race and other antics provided the spectators with many a laugh. The candle race and the candle drill, with other lights extinguished events of charm and beauty, were given a generous mead of applause by the throngs on the banks.

Thanks are due to Verle Gray, life guard, staging his initial water show; to Mrs. Leland Smith for management of program, costuming and the numberless detailed arrengements which entered into the success of the evening; to Earl Johnson of the Lodi swimming club, champion junior diver of northern California, and his friends; to the Nevada County Lumber Company for providing the seats for the audience; and to Art Rempel of Grass Valley, who loaned free of charge his amplifiers and music making devices for the program and the dance following. Net receipts for the evening, a benefit to the park and pool, were approximately $50.

The diving exhibition put on by Johnson should stir the blood of many a youngster to emulation. The tiny tots who took the high dive with such sang froid and grace should reassure many a mother who, never having had a chance to learn swimming in her own girlhood, might be expected to look askance at deep water. To the tax payers who may have questioned the wisdom of putting so much money into a swimming pool, the splendid performance of Nevada City boys and girls, graceful, lithe and strong, in their races, demonstrations of life saving, the several swimming strokes and the diving, must have resolved all their doubts in favor of the pool.

Overheard in the audience was a grandmother speaking to her daughter while her granddaguhters took part in the pageant: "My! I am so glad we have got this pool at last. For years when my children were young we had to travel miles to take them where they could swim. The places we went to I thought were dangerous. If anything had happened we could not have rescued them. Now the children can come here. They have everything handy to make the place safe. There's a guard on hand to teach them how to take care of themselves in the water, and all the newest swimming strokes and dives. And we have none of that constant worry."

Tomorrow is election day. The people will probably choose finally who will be their next congressman from this district, their next state senator, their assemblyman, and their supervisor from their respective districts. We have voiced our preference in this column. It is only one man's opinion of the relative merits of the candidates for these four offices. Others think defferently, of course. That is one of the things that make Democracies so intensely interesting and dictatorships so deadly dull. But in any event we hope that the people of Nevada county tomorrow will turn out to the last man or woman, and stamp their own preference on their ballots. Because if we don't exercise the glorious privileges of our citizenship, just as sure as God made little apples, this Democracy of ours will fail.

Mrs. Billie Smith and daughter, Bonnie Jean spent several days, in Nevada City visiting at the home of Mr. Calvin Valentine and mother, Mrs. Valentine. Mrs. Smith is the former Miss Dorothy Hooper of this city.

California Brewing Assn. Out To Defeat Bigelow For Senator

The appended letter is evidence that the California Brewers Association never learns anything. One reason that California voted bone dry sixteen years ago was because the liquor interests had attempted to dominate the State Legislature. The following letter "emphatically urging" all liquor dealers to vote for State Senator Jerrold Seawell and to get out and work for his election, not only reveals the desperate straits to which Seawell has been reduced in this campaign, but shows the Brewers Association is again meddling in state politics and attempting to build up a machine to protect their special interest in the legislature. Taken in conjunction with the fact that the State Board of Equalization, whose record in the administration of California liquor laws has been so malordorous as to attract national attention, is also backing Seawell and these have every indication here of a vicious alliance which proposes control of our state legislature.

The leter follows:

CALIFORNIA BREWING INDUSTRY, 906 KOHL BUILDING, SAN FRANCISCO, CALIFORNIA.

August 20, 1936.

To Friends of the Brewing Industry and Allied Interests:

You are aware that State Senator JERROLD L. SEAWELL is a candidate for re-election at the Primary Election Tuesday, August 25.

In order to consolidate gains made by the Brewing Industry in California and to assure the continuance of liberalized and intelligent legislation in this State affecting the Brewing Industry and allied interests it is essential that only those persons be elected to office who will cooperate for the best interests of the Industry in California.

Equally important is the fact that California needs experienced and sane representatives in the State Legislature to prevent this State from going into bankruptcy and financial chaos.

The California Brewing Industry has made a careful anaylsis of the qualifications for office of the various candidates seeking to represent the 7th District in the State Legislature. The Industry has unqualifiedly endorsed the candidacy of the incumbent JERROLD L. SEAWELL well known for his liberal attitude toward the stabilization of the Brewing Industry.

We emphatically urge you to begin at once an active canvass of your employees, family, friends and business associates and request that they go to the polls Tuesday, August 25 and vote for JERROLD L. SEAWELL for State Senator.

Unless JERROLD L. SEAWELL is returned as State Senator there is every likelihood that the candidate selected will be the opening wedge to return California to the bone dry prohibition ara.

Remember! Urge all your friends and acquaintances to VOTE for JERROLD L. SEAWELL for State Senator at the Primary Election Tuesday, August 25.

CALIFORNIA BREWING INDUSTRY

HERBERT HOOVER NOT IN MARKET FOR MINE

A few weeks ago under a Nevada (state) date line appeared a story in the newspapers to the effect that former president Herbert Hoover was in the market for a mine or mines. In a letter recently received by Hal Draper of this city the former president writes:

Dear Mr. Draper:

That was in irresponsible and untrue statement in the Press which said I wished to deal in mines. I greatly regret that you should have been misled and put to so much trouble.

I do appreciate you writing to me.

Yours faithfully

HERBERT HOOVER.

SURVEY IS MADE OF NEW ROUTE TO WASHINGTON

Three surveyors under Mr. P. E. Marshall, former WPA engineer on the court house, have spent the last three days in the Washington district east of Nevada City, at work on a preliminary survey and check of the newly suggested route for the town of Washington.

In recent weeks the people of Washington in a letter to the Nevada City Chamber of Commerce, published in the Nugget, requested a new road into their town to do away with several dangerous, steep and narrow places in the present road. The Nevada City Chamber of Commerce appointed a committee to investigate the feasible routes and report them at a meeting. This has been done and the surveyors are working on some of this data.

Three Debris Dams Ready To Go, Is Good News At Englebright Dinner

The achievements of Congressman Harry L. Englebright were happily acclaimed at a big dinner party given Saturday night in Bret Hare Inn under the auspices of the California Hydraulic Mining Association at which the congressman and his wife were guests of honor.

The most important event of the evening was the announcement of the toastmaster that three of the debris dams projects had qualified under the act of congress written by Harry L. Englebright, that is to say, more than enough assurances had been received of gravel tonnage to fill the dams to capacity, and these only needed checking over by the California Debris Commission before work on the dams could start. The two American River dams and the Yuba Narrows dam were the three to qualify first.

It was announced that two members of the Debris Commission were soon to be relieved of their duties. Col. Jackson is retiring and another member is being transferred. A resolution was adopted asking that Col. Harris, for many years field executive for the commission, be promoted to one of the vacancies.

Robert Clark, vice president of the Hydraulic Association presided in the absence of J. P. Hall, the president, detained in Los Angeles because of the critical illness of his mother. William G. Allen of Smartsville was toastmaster.

Reciting the splendid achievements of the late Congressman William Englebright, and of his son, Congressman Harry L. Englebright, in aiding the hydraulic mining industry, a resolution was passed asking the Federal authorities to name the big Narrows dam, the Englebright dam.

Among the many guests was Secretary of State Frank Jordan, who, Congressman Englebright stated, holds the record among state officers throughout the United States of having served continuously for 25 years. Only one other elected state officer betters this record in the United States. The Secretary of State declared that the last vote for Harry Englebright had made Ripley's "Believe It or Not." The vote stood 66,334 to 3, and Jordan declared the election Tuesday would undoubtedly equal this extraordinary ratio.

Speakers of the evening who lauded Congressman and Mrs. Englebright were Assemblyman Mayo who called attention to the fact that Englebright, a whip of the House of Representatives, according to tradition and precedent will be the Speaker of the House when the Republican Party returns to power; Fred M. Miller, J. K. O'Brien, State Senator Jerrold Seawell, Judge George L. Jones, Fred Nobs, Ray Manwell, Ed C. Uren, Fred E. Conner, Loyal Freeman, and R. R. Goyne. Letters were read from Will Durbow, J. G. Rector and Errol MacBoyle.

Congressman Englebright, the last speaker of the evening said:

"Whatever I have accomplished has only been possible by the reflection of the cooperation and help received from the people of this district. I have felt a "little strange" here tonight, by being called "Congressman" and would have felt better to have been called just plain Harry Englebright. It has made me most happy to see so many of my friends, State officials, members of the California Debris Commission, all of whom have worked with me for the resumption of hydraulic mining and I realize that we are now of one accord and that for the early resumption of hydraulic mining."

Mr. Englebright traced the history of hydraulic mining from its earliest begennings in Nevada county, and of the great wealth of gold that had been extracted by that process—$1,000,000,000 up to 1876. Then through what he stated to be misunderstandings the industry was closed down and $100,000,000 of investments vanished over night, communities denuded and homes deserted. Then he traced the first attempts to resume the industry, with the passage of the Caminetti Act, which did not go far enopgh to revive the industry. Then he told at length the lesiglative attempts to make it possible to resume operations and stated he finally had the honor in 1927 to introduce a bill that paved the way for the final passage at the last session of Congress to provide for the building of four immense restraining dams in California. He paid a glowing compliment to the Rivers and Harbors Commission, the California Debris Commission and all the other agencies that worked with them to get the final passage of the law. His final remarks were. "and now I am looking forward to the time in the near future when we will be able to celebrate the actual resumption of the hydraulic mining."

SKELETON BODY OF MAN FOUND ON SPRING HILL

Following a phone call yesterday afternoon from an unidentified man to Dr. Carl P. Jones, Coroner Jefford made a search in the vicinity of the Spring Hill mine and last evening found the skeleton of a man in the thick brush, covered by burlap sacking.

The remains were identified as those of Edward B. Huber, aged about 35 years, who was last seen in this vicinity about two months ago. The phone call gave approximate directions for finding the body, but it was several hours before the coroner discovered it.

The skeleton was clothed in overalls, a brown imitation suede jacket, gray felt hat with a black band, and black shoes. In the pockets were found a tire gauge, twenty cents in change and the receipt for a gasoline bill paid to Helbach Motors. There were no marks of violence discovered on the remains and whether the man was a suicide or not will probably never be known, according to the coroner, because all tissue had decayed from the bones. It is estimated that the man had been dead fully six weeks. Decomposition had been rapid owing to the hot weather.

RING UP 350 FOR CAR TO POLLS

Tomorrow is primary election day but it is expected that for the candidates in this district it will also prove to be the final election. Contesting for supervosir from this district are Cary S. Arbokast, R. H. Gordon-Ross, and Michael Kendrick. Candidates for State Senator R. L. P. Bigelow and the incumbent, Jerrold L. Seawell; candidate for Assemblyman is the incumbent, Jesse Mayo, unopposed; and for congressman, Harry L. Englebright, incumbent and Benton Fremont.

Supervisor Arbogast states that all those who desire conveyance to the polls will be provided with a car and driver by ringing up Phone 350.

NINE HUNDRED ATTEND WATT PARK RODEO

Nine hundred people attended the rodeo and round-up yesterday in Watt Park, Grass Valley, where some of the finest riders in the west demonstrated the riding prowess. Bronco busting and steer riding, with Brahma cattle, of an especially wild and fierce breed were spectacular features of the afternoon.

AERIAL SURVEY WILL BE MADE OF MINE CLAIMS

Hal D. Draper has been appointed to take care of the mill work of the Mistletoe at the Idaho-Maryland custom mill. A good tonnage per day is being shipped and good ore is in sight in the shaft. The ore dump shows up well in mill tests. After the aerial survey of the 520 acre property it will be sampled and assayed, all work to be completed by the end of the week.

Messrs: H. Draper, N. Wagner and D. Strandberg are preparing to make an aerial survey of several mines among them being the Mistletoe in the Rough and Ready district and several in the Auburn district. This will determine the lay of the formation in the properties. Mr. Draper stated in many cases the change of verdure indicates character of ground. Mr. N. S. Wagner will take the pictures from the plane.

PLACER JUNIOR COLLEGE INVITES LOCAL STUDENTS

Nevada county students interested in attending the Placer Junior College at Auburn will have an opportunity Tuesday to meet Wyman E. Olson, associate dean, who will spend the afternoon in Grass Valley and Nevada City to explain the work being offered at the Auburn school.

Olson has cade arrangements with Principal H. R. Speiss of the Grass Valley High School to be at the high school building at Grass Valley from 2 p. m. to 3:30 u. m. Tuesday. He will be at the Chamber of Commerce rooms in Nevada City from 4 p. m. to 5 p. m.

Olson will be accompanied by Miss Elaine Mobley, of Nevada City, who has been appointed to the faculty of Placer Junior College as a teacher of physical aducation and hygiene. Miss Mobley has done an exceptionally fine program of health work in the Placer Union High School for the past ten years, and her promotion will be gratifying to residents of Nevada county.

Miss Mobley is a daughter of Justice of the Peace W. L. Mobley of Nevada City. She was educated at the University of California and the University of Oregon.

Olson was in Grass Valley and Nevada City last Thursday with Earl Crabbe, athletic director of the school, to make arrangements for the interviews Tuesday.

Olson, the new associate dean of the Placer Junior College was for five years a member of the faculty of Concordia College in Minnesota and is thoroughly competent to advise students on problems of higher education.

He hopes to have an announcement for transportation companies by Tuesday, relative to the cost of transportation to and from Auburn for students desiring to commute.

EPWORTH LEAGUE NEW OFFICERS INSTALLED

Sunday evening the Epworth League of the Methodist church held installation of officers for the fall term. Officers installed were: President, Joan Grant; first vice president, Tom Rickard; second vice, Ruth Godfrey, third vice, Virginia Carney; fourth vice, Edna Doolittle; secretary-treasurer, Phil Joyal; corresponding advisor, Carl Murchie; publicity chairman, Vernie Deschwanden. Each of the new officers gave a short talk.

DRUNKEN DRIVER FIGHTS OFFICERS

Thomas Hughes, of Sacramento, accused of drunken driving and resisting traffic officers, appeared before Justice of the Peace Walter Mobley this morning. After hearing witnesses his bail was fixed at $250 in cash or $500 in bond.

Testimony of Highway Patrolmen Hammill and Kitts was that Hughes, after being stopped for drunken driving resisted the officers when they attempted to remove him from it, and sequester the car. He gripped the steering wheel and after his grip was broken and he was dragged from the car, he laid down in the highway and refused to get up. Finally his mood changed and he began to fight the officers. A well directed blow of a billy laid him out and he was brought to the county jail.

REPUBLICANS FORM A CLUB

The Young Republican Club was formed at an enthusiastic meeting last Friday evening in the Chamber of Commerce rooms. Following the election of officers and the adoption of by-laws and constitution of the state body, a plan of attack to place Nevada county in the Landon-Knox column in November was mapped out.

The next meeting will be held on Friday evening, August 28. All young Republicans under the age of 36 years or those interested are requested to join and participate in the functions of the newly organized club.

Officers of the newly formed club are: Robert Paine, president; Sven Dorf, vice president; Betty Bettles, second vice; Richard Parsons, treasurer; Robert Polglase, secretary; Clifford Merriam, public relations consul. Board of directors, Myers Mobley, Elma Hecker, Arthur Hoge, Jr., Noble McCormack, Jr., and Dr. B. W. Hummelt.

COURT HOUSE GRANITE TO SUPPORT NEW STREET FILL

Street Superintendent Herbert H. Hallett has a crew of men employed on Spring street, back of the Ford and Bennett properties grading a 100 yard stretch to fill a steep incline just south of the beautiful private park of R. J. Bennett.

Large slabs of granite from the court house are being laid on the lower side of the street and plans are to excavate in the rear of the city hall lot for a shop, the earth to be used in the fill. The P. G. & E. company has laid new and larger gas mains along the street in preparation for the new grading.

A narrow corner at the turn near the Knudsen apartment house on Spring street is also being filled with stone and debris from the court house to widen it.

BACK TO LAND MOVEMENT IN NEED OF GUIDE

(By RALPH H. TAYLOR)

Throughout the history of the United States, when business and industry have lagged in the great metropolitan areas—when unemployed have walked city streets, hopelessly looking for work, or seeking food for their families—there has been an almost instinctive migration "back to the farm."

In good times, mankind moves cityward. In bad times, just as surely, there is a sudden rush of population to rural districts—a search for food and shelter and some degree of security, no matter how unpromising the land.

California, in common with the nation at large, has experienced this artificial "back to the land" movement, almost since the start of the depression, and settlers are still pouring into the country districts, looking hopefully to the land for "a new start."

The stark tragedy of the situation lies in the fact that the great majority of the "new settlers" are foredoomed to failure—both by inexperience and by reason of the "poor lands" which their inexperience and desperation induce them to select as their farms.

According to a survey recently completed by the Resettlement Administration, 95 per cent of the new settlers in areas where the land is rated "poor and very poor" are non-farm people from the cities, with little knowledge of farming, but a desperate hope that the land will bring them escape from the economic distress and privation of the cities. Yet it is almost axiomatic that only the best and most experienced farmers can make a success on poor lands. It is equally true, of course, that the experienced farmer, because of his experience, can easily identify submarginal lands—and usually moves on in search of better lands, where he has at least a reosonable chance of farming at a profit.

To guard against the tragedy of unsound development, California communities and California agencies which come in contact with prospective settlers—need a reawakened and quickened appreciation of their public responsibility. In the long run, both the state and the community, as well as the individual settlers, suffer when poor lands are brought into production without any hope of yielding a fair return on the investment.

Every possible effort should be made to furnish truthful reports on farm lands to possible buyers—with thoroughly reliable and accurate data to temper, with fact, the glowing sales talks of promoters who are accustomed to "promise anything" to make a sale. County farm advisors, the College of Agriculture, and other responsible sources of farm information should be utilized by the various communities to make possible authentic information on the farm lands in their areas.

Back in 1914, Dr. Thomas F. Hunt, Dean of the College of Agriculture, pioneered in this important field by preparing, in collaboration with his entire faculty, a bulletin entitled "Some Things the Prospective Settler Should Know." Dr. Hunt's analysis estimated yields of California crops on various lands from four standpoints, as follows: 1. Average yield (safe estimate); 2. Good yield, which experienced farmers might expect; 3. Unusual yield. some times obtained under favorable conditions; 4. Extraordinary yield—possible but not probable.

Dr. George P. Clements, manager of the Agricultural Department of the Los Angeles Chamber of Commerce, has perhaps done more than any other man in the state to prevent unsound agricultural settlement projects over a long period of years. Often misunderstood and condemned as "pessimistic," he has nonetheless saved hundreds of prospective settlers from financial tragedy, and has helped to guide others to land which offered a fair prospect of successful farming.

At this time, when thousands are looking to the land as a possible way out of their financial difficulties, California farm communities should take the lead in eliminating the fly-by-night promoters and land racketeers who destroy confidence in agricultural lands and agricultural investments. Such a program will speed sound development, rather than retard it.

Mr. William Kensinger, employed at the Spring Hill mine, north of Grass Valley had the misfortune to lose another finger, the small one of one hand in a mishap at the mine a few days ago. Last year Mr. Kensinger lost a finger on the other hand.

NUGGET ADS PAY

AUTO ASSN. HAS 29TH ANNIVERSARY

Founded in August, 1907, the California State Automobile Association marks its 29th anniversary this month with a record of growth since last August which exceeds that of any twelve months' period in nearly a decade, it was announced. The marked increase in association membership was emphasized in an official statement to members reviewing the status of the organization on its anniversary.

A net increase of 5,555 members was recorded from August 1, 1935, to August 1 this year a gain of nearly nine per cent and bringing the total to 68,535, the statement said.

Arthur H. Breed of Oakland, the president, in a message to members reviewed the growth of the organization from the small beginnings of a single room office in San Francisco in 1907 to a present array of thirty three offices in northern and central California and a Nevada Division headquarters in Reno. Commenting further on the place attained by the Association, Breed said:

"Measured in terms of membership strength, capacity for service, and influence as a civic force in the interests of motoring progress, our association has indeed come far in 29 years. On this anniversary all things point to a steadily forward course.

"As a motoring state California is about to enter its greatest period of activity and development. Motor travel is flowing in unprecedented volume; motor car ownership is increasing apace; California's highway system has attained a grand scale of permanence, completeness, safety, and comfort; two monumental bridges will soon span San Francisco bay, breaking old traffic barriers and by reason of their bold size and beauty attracting visitors from all over the world; a great world's exposition to celebrate these huge bridges is in the making; in short, California as a motoring state appears to be sweeping toward a record of motor travel that promises to surpass anything in its history."

Mr. Fenton Fleming of Sacramento spent two days in Nevada City recently. He departed for Los Angeles to see his sister-in-law, Mrs. LaMar Fleming and little daughter embark for the Philippine Islands where they will join Mrs. Fleming's husband, Mr. LaMar Fleming who holds an important position with the Benguet Mining Company.

Mr. Ross F. Taylor of Downieville was a business visitor in Nevada City Saturday.

BABY TROUT PLANTED IN THIS AREA 1,836,000

A. H. Willard, captain of the Fish and Game Commission in this district, stationed at Nevada City, reports a very successful season in planting fingerling trout throughout his district. He has been assisted by the State Division of Fish and Game, Grass Valley Rod and Gun Club, Sportsmen's Club, and U. S. Forest Service. A total of 836,000 baby trout were planted this season in the streams, lakes and rivers of this region.

GOOD SERVICE COSTS NO MORE

A modern establishment—a trained, intelligent and courteous personnel — distinctive motor equipment and other evidences of progress and prosperity are NOT an indication that funeral service charges will be high. A successful concern can be built only by serving honestly and well, at prices that are fair and reasonable.

OLD MUSIC JOURNAL FOUND IN GRASS VALLEY

London and Hull, England, are far from this community that is as miles would count for distance, yet last Thursday the long arm of art reached that five or six thousand miles and through 50 years of time, when John Richard Pavilla found in the music library of Harold George, music director of Grass Valley high school, many musical compositions and band arrangements published by his father, Richard Smith, the owner and publisher for many years of the English Champion band journal.

The Champion band journal published in London, England, began publication in 1868 and was published continually by Richard Smith the father of John R. Pavillo until 1892 which was the time of Richard Smith's demise. The journal of band music is still published in London by Revier and Hauck.

This journal during Mr. Smith's life had subscribers all over the world and was considered the standard for all band music.

The original journal was of course printed in the most primitive manner by hand and in this work John R. Pavilla, the only son of Richard Smith, took an active part, learning the music publishing business in his father's publishing house from the stone to the hand printing press and even the addressing was done by hand.

Mr. Pavilla, a composer himself, found a thrill in examining many band pieces in the Champion Band Journal, time rolled back to boyhood and reminscenses of the music business of 60 years ago. When he came to America in the eighties he expressed art on the stage playing many fine roles in the old Tivoli theatre in San Francisco. He also played with opera companies in many other cities in this state among them being the old Union theatre in Oroville.

Mr. Pavilla just recently came up from Monterey where he has been doing some murals. He is the father of Mrs. Christian Andersen of Nevada City.

Miss Lucille Spilsbury, who has been visiting her sister, Mrs. A. Jackson and Mr. Jackson, returned to her home in the bay district Friday.

TAX RECEIPTS ON BEER, WINE GAIN

SACRAMENTO, Aug. 24.—Continuing the record breaking increases previously made, returns from the California excise tax on beer and wine amounted to $217,010.53 for July, according to the State Board of Equalization, in whose office the tax was assessed.

"This marks an increase of $29,537.66 over the corresponding revenue a year ago," the report states. "It is a gaing of 15.75 per cent and surpasses by $4,265.10 the yield for the best previous month, which was last June."

Explaining that beer sales are accountable for 87.37 per cent of the tax levied in July the report continues:

"Oout of 10,717,895 gallons taxed last month at two cents per gallon, 9,365,045 gallons were beer, leaving taxable wine sales of 1,352,890 gallons. In the same month a year ago the total gallons taxed were 9,316,024, composed of 7,953,950 gallons of beer and 1,362,074 gallons of wine.

"Champagne and sparkling wines were taxed at a different rate for the first time in July, 1935. During that month 38,413 pints were reported as sold, subject to tax at three cents per pint. Last month the same tax was assessed on 88,421 pints, making a gain of 50,000 pints or 130 per cent."

More beer and wine is taxed in California in proportion to the population than in any other state in the Union where similar laws are in existence, according to statistics compiled by the State Board of Equalization.

Mrs. Ralph Meredith and son, Wilson of Oakland spent the week end in Nevada City visiting Mrs. Meredith's mother, Mrs. W. Maguire.

Birthday Party for Leland and Warren Smith

A birthday party was given this afternoon for Leland S. Smith Jr. and Warren Smith, twin sons of Mr. and Mrs. L. S. Smith of Clay street. The boys are 11 years old today. Guests at the party were: Dick Evans, Edmund Berger, Edward McGivern, Bob Elkus, Umberto Soga, Bob Bonner, Jimmy Hamilton, Clement Fenwood, Warren Lystrup and John Alderson. A great variety of games were played and delightful refreshments served following the party.

Stella Marie Willy Has Birthday

Mrs. H. Willy of Mill street invited eight little friends to join in celebrating the fifth birthday of her little daughter, Stella Marie, last Friday afternoon. The group enjoyed a theatre party and dainty refreshments.

Those present were, Marylin, Anita, Geneva and Erick Anderson, Colleen and Leo Willy, Betty Sattler, Evelyn Welsh and Jack Bonaverr.

Families Celebrate Birthdays of Daughters

Mesdames Harry Sattler and Christian Andersen of Spring street entertained jointly Saturday in Memorial Park, Grass Valley, in honor of the birthdays of their daughters, Betty Sattler, nine years old, and Marylin Anderson, seven years of age. The group enjoyed games and swimming. A huge merry-go-round birthday cake with 16 candles on it, combining the ages of the two little girls, was served with the dainty refreshments.

Those present were, Sonny Sattler, Colleen, Stella Marie and Leo Willy, Finnett Champie, Erik, Anita, Marylin and Geneva Andersen, Buddy Cook, Leroy Lewis, Jackie Bonaverr, Elain Tatman, Mary Wilson, Betty Sattler, Mesdames. Sattler, Andersen, Bonaverr and Tatman.

Mr. and Mrs. Thomas Duhane and son of Sacramento spent Sunday in Nevada City visiting Mr. and Mrs. J. F. Dolan.

MRS. GEO. F. RADDUE
Member M. T. A. of California formerly Dist. Chairman of Music, Federated Women's Clubs, Pupil of Louis Grauvere (Belgium)
has established her home in Grass Valley and will open a Voice Studio at Armstrong Court off Auburn Street by High School.
High School students enrolling before Sept. 15 are eligible to outside credits. A special rate will be made to Elementary and High School Students enrolling during this period. No charge for audition. Special attention to Coaching Singly or Groups.

Personal

Mr. and Mrs. Clay Epperson and small son returned to their home in Bakersfield Sunday after a week end visit in this city with Mrs. Epperson's parents, Mr. and Mrs. Charles Guenther.

Capt. and Mrs. E. F. McCain of Mare Island are guests of Mr. and Mrs. C. E. Parsons.

Mrs. Harry Hider, of Vallejo, who underwent a major abdominal operation at the Nevada City sanitairum has so far recovered that she was able to leave the sanitarium Saturday. Dr. B. W. Hummelt was the attending surgeon.

Major S. Haney of San Francisco guest of Major and Mrs. Frank Chapman, is spending a few days in the bay cities on business.

Mr. and Mrs. H. Neva of San Francisco were Nevada City visitors in the last few days. Mrs. Neva was the former Miss Maude Pianezzi and is interested in the hotel at the Gold Run bridge in this city.

Billie Walker, small son of Mr. and Mrs. Clarence Walker of Gold Flat received minor surgery under Dr. B. W. Hummelt Thursday and is making a good recovery.

Mrs. Charles Wyant, of the Shamrock Cafe, returned home Thursday evening from the bay district where she had gone to see about her daughter entering college.

Freight trains nowadays act like express specials. New freight schedules are so fast, I sometimes wonder if everything has to be delivered day before yesterday.

Many of our passenger trains are running faster schedules, too. Well, one thing is sure. We make faster runs, but the first railroad commandment is still "Safety First." That's one rule they won't change.

Western railroads and allied industries provided jobs for 750,000 workers last year. Some of them live in our town. Good neighbors.

Passenger fares are now the lowest in history with substantial reductions on round trips. And no more surcharge for riding in sleeping cars.

This Free pick-up-and-delivery of less than carload freight—I heard some traveling salesmen talking about it on the train yesterday. They said it saves shippers a lot of money and centers all responsibility on the railroad. The railroad picks up the freight at shipper's door and delivers it at receiver's door. Of course, the local delivery men get the haul from door-to-car and car-to-door at both ends. But the railroad handles the whole transaction.

When railroads are busy, I notice towns along the railroad are prosperous. The merchants put more ads in the newspapers.

Weareproudofrailroadachievements, appreciate the public's good will and increased patronage, and pledge continued progress.

SPARROWS SQUATTERS DEFY U. C. SAVANTS

BERKELEY, Aug. 17.—Without as much as asking permission of the Board of Regents, or filling a location notice, a colony of Nuttall white crowned sparrows have squatted on that portion of the University of California campus between California Hall and the Life Sciences building, and have notified all and sundry to keep their distance. In spite of the fact that a number of the birds have been trapped repeatedly for the purpose of study by University scientists, they refuse to move from the spot upon being released. In fact they seem to enjoy the trapping experience, for some of them go for the bait repeadely, and thereafter appear to proudly display the little colored bands that the zoologists place about their legs. Through these bands the scientists are enabled to watch the birds and obtain much information regarding their behavior.

Vote Your Choice Of Candidates Tomorrow As A Good American Citizen

Vote for R. L. P. BIGELOW for State Senator because this district which he has served as Forest Supervisor for 28 years still needs him.

Vote for him because of his high character, his energy in building roads throughout Placer, Nevada & Sierra Counties - roads which have made mines accessible, forest fires more easily controlled, timber available and the wide resources of natural recreation areas open to all the people of the United States.

Vote for him because his record of 28 years service as Forest Supervisor has been a clean record of devotion to the best interests of all the communities in these mountains.

Vote for him because the State Board of Equalization, whose liquor administration is a continuing scandal in California, is fighting bitterly to defeat him.

Vote for him because the California Brewers Association has blacklisted him and is spending money on a frantic appeal to all liquor dealers to defeat him.

Vote for him because you need an honest, capable man in the State Senate to battle the corrupt machine politicians who now load your backs with taxes.

Sincerely yours,

The Bigelow For State Senator Committee

JULY GAS TAX TOTAL $4,422,694

SACRAMENTO, Aug. 24.—California gasoline tax assessments for July reached a total of $4,422,694.06, surpassing the total for any previous month except that for June, 1932.

"While the July tax is only $71,221.83 more than the total tax for the corresponding month of 1935," stated the report, the fact that there has been an increase is in itself significant of gratifying business conditions.

"A year ago the total tax for the month marked an increase of 43 per cent over July of 1934 and was the greatest gain ever noted. It undoubtedly resulted from the marketing of gasoline in huge quantities following the collapse of controlled prices under the NRA. This was obviously an abnormal situation which would not be duplicated.

"Yet business conditions have improved so steadily that the gasoline sold last month subject to the California tax exceeded the gallonage for the record breaking total in 1935 by more than 2,398,000 gallons. Only once before in the history of the gasoline tax has so large a gallonage been assessed in any one month. That was in June, 1932."

CONSTIPATED 30 YEARS AIDED BY OLD REMEDY

"For thirty years I had constipation. Souring food from stomach choked me. Since taking Adlerika I am a new person. Constipation is a thing of the past."—Alice Burns.
